MOORS
SURFBOARDS

Founded in 2011, **MOOR'S** is a Moroccan surf brand created by surfers who grew up riding the waves of the Kingdom throughout the early '90s — from the vibrant shores of Casablanca to the iconic breaks of Taghazout.

From the very beginning, MOOR'S has been driven by one passion: making surfing more accessible to everyone. Today, the brand is recognized internationally for delivering exceptional quality surfboards and gear at prices that open the sport to all — without ever compromising on performance.

Our range covers all the essentials of surfing: surfboards, wetsuits, leashes, fins, grips, and accessories — carefully designed to support surfers at every level, from the thrill of the very first wave to the pursuit of new limits.

Innovation is in our DNA. Many features now common in the surf world were pioneered by **MOOR'S** — including the ergonomic softboard handle, reusable packaging for leashes, color-coded wetsuits for surf schools, and the early adoption of Carbon INNEGRA technology back in 2013. Each innovation is guided by the same promise: durability, performance, and practicality for surfers everywhere.

Our Mission: To fuel the growth of surfing in Morocco and beyond by creating reliable, affordable, high-quality gear that helps more people experience the freedom and joy of riding waves.

SOFTBOARDS

DURA X LITE

Specifically designed for beginners, surf schools, surf camps, holiday clubs and beach clubs...RIDE-IT EASY Dura-Xlite by MQOR™S will allow everyone who wants to learn the magic of surfing to easily get on-board, take off and...ultimately, understand the addiction that is riding a wave!

KEY FEATURES

- + EPS core-foam
- + Slick-soft bottom
- + High-quality IXPE shock-proof material that reduces "dings"

This range of surfboards is the best quality for this type of board available today on the market. Thanks to its combination of best materials, it is light, but strong and very durable. The board was engineered by Australian experts for riders who, just like them, are on the beach 24-7-365.

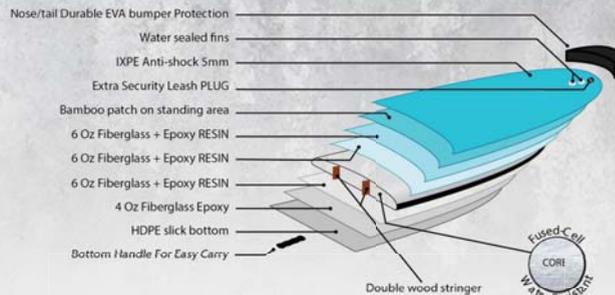

Surf schools will be delighted to have these long-lasting, high-quality boards.

RECOMMENDED FOR

- + All-year riders
- + Entry-level
- + Surf Schools

9'0" large	28 3/8"	4 1/4"	144.91L

SOFTBOARDS

RIDE IT EASY

This is our entry-level soft-board. An excellent shape with good construction made from high-quality materials. This makes our board the best in the market for surf schools, or for people who want to buy their first ever ride. These boards are also great for summer days of fun with family and kids.

KEY FEATURES

- + EPS core-foam
- + Double-bamboo stringers
- + Reinforced lamination materials

The ride-it-easy model is a high-end quality softboard with durable finish dedicated to surf schools and absolute beginners. It also belongs in any serious surfer's quiver for playful surfing days. The model comes in a variety of sizes and shapes with different lengths. Currently the best choice for schools matching exceptional quality with the best price point in the market.

The board also comes with an integrated handle on the bottom for easy carrying.

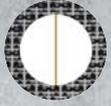

RECOMMENDED FOR

- + Entry-level
- + Surf Schools

COMPLETE COLLECTION

OF SURFBOARDS FOR ALL YOUR SESSIONS

MINI SIMO 2.0

One of the classic appreciated boards by surfers is the mini simmons.

It's a fun surfboard that they prefer to surf in small sizes, as its high volume allows for smooth gliding even on very small waves.

available in
Epoxy + Innegra Carbon

Our new model "Mini Simo 2.0" is a bit special ;

We designed it with a nice lowered edge along the deck of the board to have significantly thinner rails.

We also drew a single concave in the bottom, and slightly raised the front and rear rockers for a reactive rail to rail surfing.

MINI SIMO

2.0

RETRO FISH

available in
Epoxy + Innegra Carbon

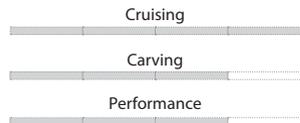

The Retro Fish is a board that retains the classic 70s style of twin fishs outline with a modern touch bringing it up to date.

With a sufficiently wide nose, combined to a considerably pinched rails and a fairly thin swallow tail, you benefit from stability, speed and flow, without losing maneuverability and performance in different kind of condition from knee high to overhead waves.

RETRO FISH

DIAMOND TAIL

available in
Epoxy + Innegra Carbon

The Diamond Tail is a board that can be surfed as short as possible due to its generous foam, especially under the chest, which allows for easy entry into the wave.

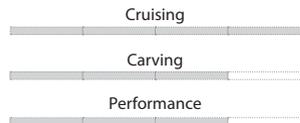

It adopts a revisited retro style, with a single to double concave for maximum speed and responsiveness.

Its diamond-shaped tail offers a tighter turning radius and increases pivot.

With appropriated twin fins setup, you can enjoy doing your loved sliding tail manoeuvres.

PERFORMANCE SHORTBOARD

available in
Epoxy + Innegra Carbon

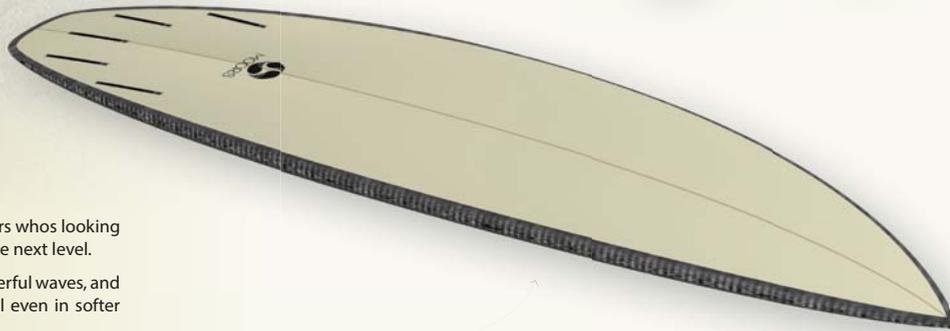

Our shortboard is made for advanced and intermediate surfers who are looking for a high performance board to take their manoeuvres to the next level.

It's designed to work in different conditions, especially in powerful waves, and with its wider outline and medium rocker it still functions even in softer ones.

This board has all the features to be your go-to board or your weapon in good days.

PERFORMANCE
SHORTBOARD

MID-LENGTH

available in
Epoxy + Innegra Carbon

The mid-length surfboard is known for its ability to offer an effortless way of transition from bottom to top of the wave.

It holds the speed down the line which makes easier the surfing in clean condition and in weak waves too.

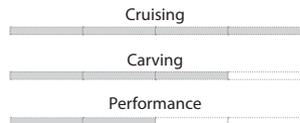

It's an excellent choice for surfers who appreciate stylish and smoothy surfing.

Our model has all the necessary features of modern mid-lengths, including a pin tail and channels for maximum glide and performance.

It can be surfed as a twin, quad or thruster, offering different gliding sensations, and a great adaptability with any water condition.

MID-LENGTH

FISH BOARD

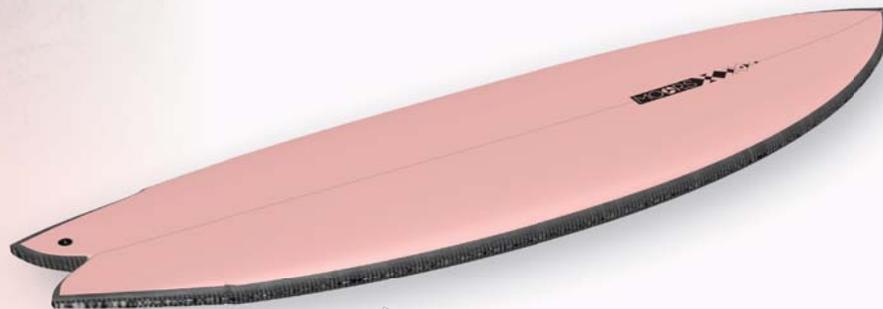

available in
Epoxy + Innegra Carbon

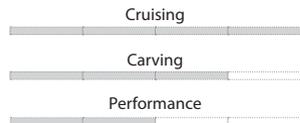

Our modern-style fish hybrid boards are fast and loose on waves that are slow and mushy. Built with a 5 fins set up, that allows you to surf it in thruster, quad or twin. This will allow you to get the most out of the waves for a different ride sensation and improved manoeuvrability.

The fish tail is designed to maximize rail length, improve drive and add lift, while also offering a quick release allowing you that floaty feel.

FISH BOARD

EGG BOARD

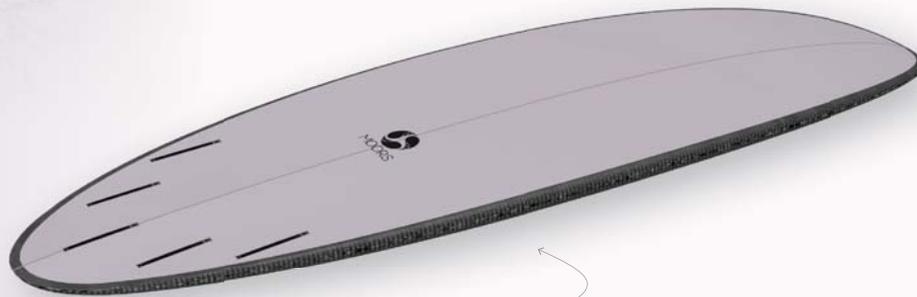

available in
Epoxy + Innegra Carbon

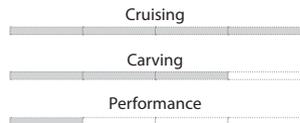

This type of hybrid board is an excellent choice for beginners to intermediate and advance riders. The Egg shape has a combination of width and thickness making it very buoyant, giving a stability which allows riders to easily catch any wave (with an easy take off).

The double-concave tail which facilitates water flow and, when combined with quad fins, gives a much looser ride to enhance flowing manoeuvres.

Built with a 5 fins set up, that allows you to surf it in thruster, quad or twin. This will allow you to get the most out of the waves for a different ride sensation and improved manoeuvrability.

EGG BOARD

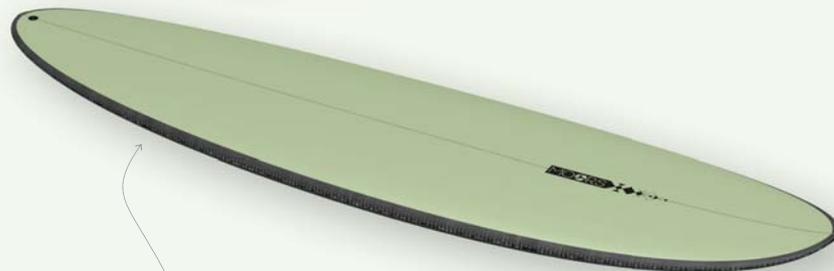

MINI MALIBU

These are great for beginners but also offer advanced surfers more wave conditions to surf in. Considered as hybrid or fun-boards, they give surfers better mobility in the water, more stability on the wave and an easier paddle overall. Built with 2 side fins using the Futures Fins (included) and a removable centre single fin, you can take out the side fins in smaller conditions and surf it as smoothly as a single fin.

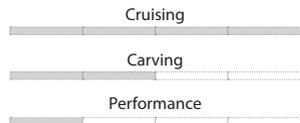

available in
Epoxy + Innegra Carbon

This is the perfect all-rounder; a very good entry-level board for new surfers and a playful board for advanced surfers to have a bit of fun with.

LONGBOARD

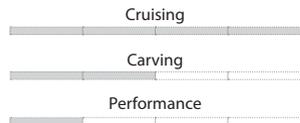

available in
Epoxy + Innegra Carbon

A great board for experienced surfers, and equally so for beginners who want to have some fun in smaller waves.

These classic longboards are perfect for gently cruising the length of a wave - easy to paddle and fast down the line. Built with 2 side fins using the Futures Fins (included) and a removable centre single fin, you can take out the side fins in smaller conditions and surf it as smoothly as a single fin.
